

Consultation Photos

- See below to learn how to take photos from the area: one view from the front, one at 45 degrees, and another completely from the side. Please take the 45-degree and side-view photos from both sides.
- For the best photos, find a well-lit location, and ask a friend or family member to take them (rather than a selfie or in a mirror).
- You may upload photos with our [secure e-consult tool](#). Be sure to enter your name and contact information when you start. If you upload anonymously, the photos will not be connect to your records.
